# Switchable LC Privacy Glass

Ensure that visually open spaces can also provide complete privacy with glass that frosts on demand. Switchable LC Privacy Glass, powered exclusively with eGlass® brand technology, features electrically activated, PDLC / smart glass. It instantly switches from a transparent to a frosted white state at the flip of a switch, by mobile device, or by voice command.

# Dynamic Glazing Solutions For *Every* Industry

## Residential

As "smart home" Architects and Designers know, electronically switchable glass is the state-of-the-art solution for instant privacy without sacrificing light and views. Applications range from Bathrooms, Bedrooms, and Kitchens – to elegant Grand Entrances.

## Healthcare

LC Privacy Glass in Tormax doors is just what the doctor ordered for privacy and infection control in Healthcare facilities. Doors slide and break away for easy access to patients' rooms, ICU's and OR's.

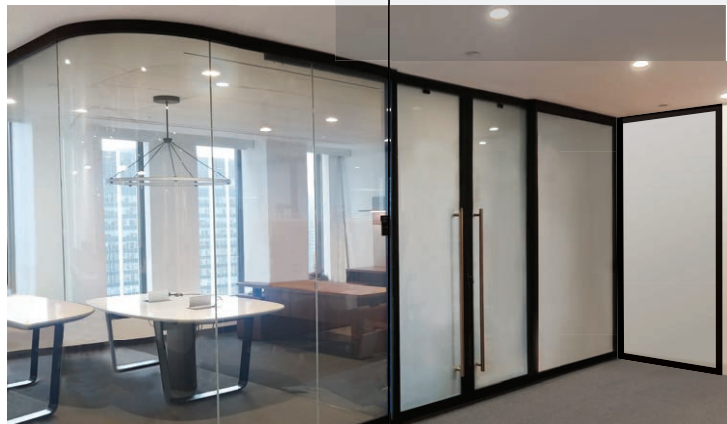

## Commercial

LC Privacy Glass is extremely versatile, offering high-end style and unlimited design possibilities. From Conference Rooms and Board Rooms, to Demountable Partition Systems and interior and exterior Windows and Doors – we've got you covered.

## Customizable

Custom shapes, sizes, and most hard to reach places are no problem. Our products are hand-crafted, built to your specs, and made in the USA.

PowerTrack™

Doors, walls, windows, and demountable partitions swing, slide, and fold with our patented **PowerTrack™** power transfer systems – with *no visible wires*. LC Privacy Glass will put the “wow” factor in your next project.
